

Demand for Construction Materials

The demand of the selected construction materials are compiled from information obtained from suppliers through monthly surveys conducted by BCA as well as from the International Enterprise Singapore. These construction materials are namely cement, steel reinforcement bars, bricks, granite and ready-mixed concrete. The prices given are for materials delivered to site.

| Period | Cement (‘000 tonnes) | Steel Bars (‘000 tonnes) | Bricks (million pieces) | Granite (‘000 tonnes) | Ready-Mixed Concrete (‘000 Cubic Metre) |
|-------------------------------------|-------------------------|-----------------------------|----------------------------|--------------------------|--|
