

# ACKNOWLEDGEMENT

“Good Industry Practices – Marble and Granite Finishes” was first published in 2000. Inputs were obtained from architects, main contractors, stone suppliers/installers and members from the various professional associations, including the Real Estate Developers’ Association of Singapore (REDAS), Singapore Institute of Architects (SIA), Singapore Contractors Association Ltd (SCAL) and Natural Stone Association (NSA).

A Technical Committee for Good Industry Practices for Marble and Granite Finishes was then formed to endorse the good practices identified. We wish to again express our gratitude to the members for their contributions, and to Mapei Far East Pte Ltd and SETSCO Services Pte Ltd for their active assistance in drafting the guide book.

## Technical Committee for Good Industry Practices for Marble and Granite Finishes

<b>Chairman :</b>	Mr Allen Ang Aik Leng	BCA
