

WINDOWS SAFETY DAYS

06/06

12/12

CHECK YOUR WINDOWS EVERY 6/6 AND 12/12.

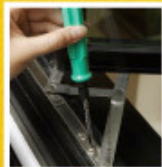

Practise windows safety. Maintain your windows at least once every 6 months.

WINDOWS MAINTENANCE TIPS:

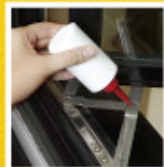

For casement windows:

Replace aluminium rivets/screws with stainless steel ones.

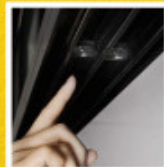

Tighten loose screws.

Clean and lubricate joints/moveable parts.

For sliding windows:

Check for safety stoppers.

Check for angle strip.

Clean the tracks and ensure window panels can slide smoothly.

If any part of the window is loose, cracked, missing or corroded, please engage an approved window contractor to carry out the necessary repair works.
