TRADE TESTS AT SEC(K) LEVEL

Over the years, BCA has expanded the range of Skills Evaluation Certificate (Knowledge) (SEC(K)) trade tests available at the Overseas Testing Centres (OTCs) in various source countries.

With the wider range of trade tests, construction companies can now train and test their new workers in the relevant trades according to their project requirements and manpower needs, so that their workers could commence work in the trades that they are trained in, when they report to work in Singapore. This will improve site productivity, quality of work, and also save cost for the companies as the workers need not be re-trained on site.

BCA introduced trade tests at Skills Evaluation Certificate (Knowledge) or SEC(K) level in Feb 2000. Only those who pass both the written and practical components of the test will be awarded the SEC(K) certificate. The syllabus and sample test papers for relevant trades are available at the Singapore’s offices of the OTCs.

Registration Procedures for Overseas Testing

1. Upon receipt of the Prior Approval (PA) and two copies of Form T1 (applicant’s copy and BCA’s copy) from the Work Pass Division, Ministry of Manpower (MOM), the contractor(applicant) is required to complete and submit both copies of Form T1 and the original PA form to the respective Singapore offices of the selected OTCs. To register for overseas testing, the Prior Approval (PA) is required to be valid for at least 2 months from the closing date for test registration in that country. (Please refer to https://www.bca.gov.sg/academy/cop_Testcenters.aspx for the closing date for test registration.)

2. The OTC will record the number of test candidates registered for test and endorse both Form T1 and original PA form, and return the Applicant’s Copy of Form T1 to the contractor.

3. The respective contractors/employers who register their test candidates for trade tests must bring and employ all those candidates who have passed the SEC(K) tests, within 4 months after the test date.

4. Within one week of the foreign workers’ arrival in Singapore, the employer must bring those who have passed the SEC(K) tests to Manpower Development Department, BCA for identity verification. Work Permits will only be issued to workers whose identity has been verified.
