

# BIM Fund

# BIM Fund

- Aims at supporting **technology adoption & capability building** at 2 levels
  - **Professional Level**
    - Modeling, Analysis and Documentation
  - **Project Level**
    - Project Collaboration and Coordination

# BIM Fund

## Modeling, Analysis and Documentation

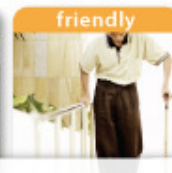

– Desirable Outcome:

- create BIM model;
- perform analysis; and
- produce consistent project documentation

## Project Collaboration and Coordination

– Desirable Outcome:

- perform project co-ordination with other disciplines;
- identify potential conflicts; and
- reduce reworks downstream

# BIM Fund

## Key Target Groups of Firms

- Architectural, M&E & Structural Design Consultant Firms
- Construction Firms
- Other Consultant Firms (QS & PM)

# BIM Fund

## Eligibility of Firms

- Companies that are registered and physically present in Singapore are eligible to apply for the fund
- Firm with an on-going or upcoming building project on-hand

# BIM Fund: Support Level & Cap

## Modeling, Analysis and Documentation

- Training & Consultancy (handholding)
- Max qualifying cost: \$14K per firm
- % subsidy: 50%
- Maximum grant: \$7K per firm

# BIM Fund: Support Level & Cap

## Project Collaboration and Coordination

- A group of firms working on a same project
- Training, Consultancy, Software & Hardware
- Max qualifying cost: **\$140K** per project
- % subsidy: **50%**
- Maximum grant: **\$70K** per project

# BIM Fund

## Completion Criteria

- Complete Training & Handholding Course
- Adopt BIM in key processes for at least one actual project
  - Applicants from design disciplines (Architectural & Engineering): e.g. submissions or green building design
  - Applicants from non-design disciplines (Contracting, QS and Project management): e.g. quantify takeoff, tendering or construction planning

# BIM Fund

## Completion Criteria

- Skill certification
- Demonstrate and document productivity improvement

## Additional Completion Criterion (project level)

- Perform project coordination involving at least 2 disciplines
