FUNCTIONS & SCOPE OF THE CONTRACTORS REGISTRATION SYSTEM (CRS)

**Functions of CRS**
1. The CRS is administered by the Building and Construction Authority ("BCA") to serve the procurement needs of government departments, statutory bodies and other public sector organizations including first level sub-contractors involved in government projects. Except for Regulatory Workheads (RW), CRS functions as an administrative body only for the public sector procurement. As such, business entities which are not registered with BCA are not restricted from conducting business as contractors or suppliers outside the public sector.

**Scope of Registration**
2. There are seven major registration categories, namely Construction Workhead (CW), Construction-Related Workhead (CR), Mechanical & Electrical Workhead (ME), Maintenance Workhead (MW), Supply Head (SY), Trade Head (TR) and Regulatory Workhead (RW). There are 7 financial grades for CW, 6 financial grades for CR, ME, MW, SY and single grading for CR01, CR03, CR15, CR17, CR18, TR and RW. Please refer to respective Specific Registration Requirements ("SRR").

**APPLICATION DETAILS**

**Application Procedure**
3. The SRR specify in detail the registration requisites. An Applicant shall only be defined as a sole-proprietorship, partnership, limited liability partnership, limited partnership or company and shall not include an individual. Applicants who wish to apply for registration must read these Terms of Registration ("TOR") and the SRR carefully which can be found from this link [www.bca.gov.sg/Professionals/Procurement/procurement.html](http://www.bca.gov.sg/Professionals/Procurement/procurement.html). In submitting the application, applicants shall be deemed to have agreed to these TOR and the SRR.

4. Applicants can submit the CRS applications online at [www.bca.gov.sg/eBACS](http://www.bca.gov.sg/eBACS). The submissions should include every item in the checklist in the correct sequence. It is the applicants’ responsibility to ensure completeness of the submissions, including the provision of a valid email address. Incomplete or non-compiled submissions may be disregarded. Applicants will be informed if the submissions are incomplete or not in order.

5. Registered Firms may apply for upgrading or apply for additional workheads at any one time provided they meet the SRR of the workhead(s) they are applying for. The validity for such applications will remain unchanged (refer to para 45).

**Processing Fees**
6. The processing fees for all applications are quoted when submitting online. It can also be found on Table A of the TOR. Payment can only be accepted through VISA, MasterCard or i-Banking for all forms of online transaction. The processing fee is non-refundable irrespective of the application result. BCA may adjust the processing fees without giving any prior notice whatsoever. All fees quoted are inclusive of GST.

**References**
7. In submitting the application, the applicant will be taken to have authorised BCA to make all necessary enquiries relating to the applicant. Applicants are required to attach scanned references from the clients/consultants of the projects. In the course of processing the applications, BCA may wish to obtain further information from the applicant’s references (i.e. auditors, banks, former clients and/or consultants who supervised the works of the applicant) either by requesting the presence of such persons or sending officers from BCA to the–applicant’s head office (local or overseas) for further verification. All flight/transport, accommodation (overseas), incidental and service charges, shall be borne by the applicants. In the event that no reference is forwarded, BCA will complete the processing based only on the available information.

**Processing Time**
8. Under normal circumstances, if the submissions are complete and in order, it is expected that the applicants will be informed of the outcome within 2 weeks (except for B2-A1, L5-L6 and applications that require overseas verification).

9. Registered firms are requested to apply for renewals early once they have received the reminder letter about two months before the expiry date of their registration. Processing is on first-come-first-serve basis. Late applications cannot be expedited.

**Outcome of Application**
10. Upon successful application, the applicant’s name, workhead, grade and such other details deemed appropriate by BCA will be published in the CRS webpage at [www.bca.gov.sg](http://www.bca.gov.sg). Successful applicants may also wish to purchase a copy of the Certificate of Registration (optional) at the CRS counter.
REGISTRATION REQUIREMENTS

Track Record and Performance
11. Applicants are expected to meet the SRR for each workhead. In the event of any inconsistency between these TOR and the SRR, the SRR shall prevail.

12. Applicants are expected to have, in the last three years, completed projects relevant to the particular workhead and respective grade (see the SRR) and reflected under the column ‘Track Record’. The applicants must attach scanned copies of awards, purchase/work orders, substantial completion certificate or letter confirming the start of defects liability period, latest payment certificate and client’s endorsement to substantiate to BCA’s satisfaction of these track records.

13. Main contracts and nominated sub-contracts should generally form the substantial portion of the track records. Please refer to the SRR for details. Trade Head require endorsement from two main contractors registered with BCA.

14. Applicants may use the same project to apply for more than one workhead provided that the project value is apportioned to the relevant types of works under the respective workheads.

(c) In addition, applicants are expected to give documentary evidence that they are able to supply such items. The documentary evidence and brochures should clearly illustrate the applicants’ dealership, distribution or sole agency rights.

16. In addition to the requirements on aggregate project values, applicants are expected to have a consistently good performance record. Those with poor performance history may be refused registration. Firms applying for upgrading to higher grades are expected to have achieved a high standard of performance in the projects undertaken by them.

17. A firm applying for renewal of its registration status is expected to prove that it is still active in the line of business. It is expected to produce evidence to show to BCA’s satisfaction that it has undertaken relevant works or supplies during the preceding three years.
