

About IDG

BCA's International Development Group (IDG) promotes and helps Singapore construction-related firms to venture overseas. We helps firms to gain a foothold in target markets through business intelligence, project referrals, market familiarisation trips and networking sessions.

Our international efforts focused on emerging markets in *China, Southeast Asia (Indonesia, Myanmar, the Philippines, Vietnam) and South Asia (India, Sri Lanka).*

By expanding overseas, local firms can grow, build new capacities and capabilities to develop resilience against domestic business cycles.

Success Story

Consis Engineering - Creating Gardens on Vertical Plane

Consis Engineering has been in the vertical green landscaping business for the past 10 years, bringing a green touch to many commercial buildings in Singapore. Since 2011, Consis has participated in IDG organised mission trips, forums, and pavilions in overseas exhibitions and networking events, to introduce the Consis Vertical Greenery System (VGS). Through IDG's facilitation, the Consis VGS is now well recognised in China, helping them to clinch a project in the Tianjin Eco-City.
