

About IDG

BCA's International Development Group (IDG) promotes and helps Singapore construction-related firms to venture overseas. We help firms to gain a foothold in target markets through business intelligence, project referrals, market familiarisation trips and networking sessions.

Our international efforts are focused on emerging markets in China, Southeast Asia (Indonesia, Myanmar, Cambodia, Philippines, Vietnam) and South Asia (India, Sri Lanka).

By expanding overseas, local firms can grow, build new capacities and capabilities to develop resilience against domestic business cycles.
