BCA Clean-up @ East Coast Park

Did you know?

East Coast Park is Singapore's largest park at 185 hectares and home to many dining outlets and outdoor revelry. A familiar location to all Singaporeans, East Coast Park was entirely built on reclaimed land and completed in 1985; augmenting Singapore's extensive development plans. East Coast Park also stretches over 15km of coastline and BCA manages most of the foreshore structures (rock revetment, geobags and jetties) on behalf of MND. These structures are important to protect against the loss of our limited coastal land, safeguarding the needs of our future generations.

How can you help?
