The Green and Gracious Builder Award (GGBA) was introduced in February 2009 to recognise progressive builders who adopt environmentally friendly practices and minimise the effects of construction for people living close to the worksite. Builders are rated on their performance in adopting best practices in construction site management.

The scheme was enhanced to stay relevant with the dynamics of the industry and to further encourage builders to adopt more of such best practices. This award recognises the conscious effort of builders in implementing environment protection and gracious practices during the construction phase of projects.

The GGBA 2016 will be given to the following ratings:
- STAR
- EXCELLENT
Wee Poh Construction Co. (Pte.) Ltd.

GREEN AND GRACIOUS BUILDER AWARD

KEY FEATURES

- Crack inducer method used during pile head extraction to reduce noise and vibration.
- Screed-less floor used to enable direct tiling to enhance productivity at site.
- Natural daylight provided along covered walkways within site by using acrylic panels.
- Shorten the duration of pile load test by adopting the StratRapid method, hence reducing noise pollution to communities around the project.
- Extensive use of greenery at project sites.

Their current projects includes:

- Lake Life Executive Condominium at Yuan Ching Road
- Proposed Additional, Alteration and Change of Use to Technopark @ Chai Chee
China Construction (South Pacific) Development Co. Pte Ltd.

GREEN AND GRACIOUS BUILDER AWARD

EXCELLENT

Their current projects include:

- Alex Residences
- HDB Bukit Batok N4 C8&9

KEY FEATURES

- Use of see-through mesh hoarding near site access to facilitate sighting of pedestrians for public safety.
- Plan the project such that permanent railings were installed instead of temporary railings to reduce wastage of materials.
- Site Access gantry is installed with alarm as a safety precaution to alert lorry drivers.
GREEN AND GRACIOUS BUILDER AWARD

CKR GROUP OF COMPANIES

EXCELLENT

Their current projects includes:
  • The Promenade @ Jalan Pelikat
  • Stratum @ Elias Road

KEY FEATURES
  • Include the cleaning of public drains and access paths as part of their housekeeping duties.
  • Use of wall with half acrylic panel to bring in natural lighting to the site office.
  • Extensive usage of recycled materials for both construction and recreational activities.
Rich Construction Company Pte. Ltd.

GREEN AND GRACIOUS BUILDER AWARD

KEY FEATURES

• North-south orientation for site office to reduce the heat loads.

• Comprehensive road safety hazard identification and risk assessment done for heavy vehicle site access routes.

• Install water spraying devices on hoarding for dust control on site.

• Provide basketball and multi-purpose courts on site for workers welfare.

Their current projects includes:
• HDB Tampines N4 C28
• HDB Bukit Batok N4 C14&15
